

Call for Participation

**2019 Joint Workshop of Hiroshima
University and Pusan National University (HU-PNU 2019)
January 18, 2019**

**Reception Hall (2F), Hiroshima University Faculty Club
Higashi-Hiroshima, Japan**

Sponsored by

**Dependable Systems Laboratory, Hiroshima University (HU)
Production Systems Engineering Laboratory, Hiroshima University (HU)
Department of Industrial Engineering, Pusan National University (PNU)**

Summary: Hiroshima University (HU), Japan and Pusan National University (PNU), Korea have a long history in the academic exchange and collaborations. Although the international exchange agreements between two universities were officially concluded in April 20, 2000, the exchange in the engineering school level has been established several decades ago. In the research area on Operations Research (OR) and Industrial Engineering (IE), we started the students exchange and joint research projects in the labo level in 2002, and have continued during the almost last two decades. Following the great success of the Japan-Korea Joint Seminar 2018, we are pleased to hold 2019 Joint Workshop of Hiroshima University and Pusan National University (HU-PNU 2019), in Hiroshima University, again. We welcome four PNU professors, eight PNU graduate students, three HU professors and five HU graduate students as the speakers. We appreciate their technical contributions in this event and expect to exchange the new ideas from each other.

Program

10:15-10:20 Opening Address

10:20-12:00 Session 1 by four faculty members in HU and PNU

12:00-13:30 Lunch Break

13:30-14:30 Session 2 by six graduate students in HU and PNU

14:30-14:50 Break

14:50-15:50 Session 3 by six graduate students in HU and PNU

15:50-16:10 Break

16:10-17:00 Session 4 by two faculty members in HU and PNU

17:00-17:05 Closing Address
